

# SAY GOODBYE TO YOUR Natural Health Products

CAUSE OF DEATH—PREDATORY REGULATION

1

Health Canada is implementing what they call the Self-Care Framework.

2

When fully implemented most of our natural health products will be gone.

3

The professional natural health practitioners we rely on will also be gone.

4

Health Canada will be responsible for people losing their livelihoods and their lives.

5

In the meantime prices will skyrocket and truthful health information will be censored.
