

# Covid Policies Got You Down?

## Has Your Business Been Negatively Affected By Covid Policies, Restrictions and Lockdowns?

### The Cost of the Lockdowns

Lockdowns have led to unprecedented job loss, and the destruction of many businesses. Many people are gravely concerned that their personal and financial well-being is at higher risk from lockdowns than from the virus itself.

### Lockdowns Don't Work

World Health Organization representative Dr. David Nabarro has stated clearly, "We in the World Health Organization do not advocate lockdowns as the primary means of control of this virus." He added, "The only thing the lockdowns are accomplishing is to make the poor poorer." With businesses still being severely restricted in the number of customers they can serve, the only thing being accomplished is further damage to the economy.

## Are you frustrated with how restrictions are being implemented differently for different business types?

### Staggering Number of Failed Businesses

Already, many businesses have gone under, and many more will follow if the lockdowns are not ended immediately. Hard-working people are losing businesses which they worked years to build in order to provide for themselves and their families. They will take many years to rebuild, and in the meantime, unemployment will remain at record levels.

### Double Digit Unemployment

The lockdowns have resulted in the greatest spike in unemployment in nearly half a century. In three months, the unemployment rate more than doubled to an unprecedented 15.5% and has still not recovered to a level seen in the past 30 years.

The cost of the lockdowns goes far beyond increased debt and job losses. The societal impact is nothing less than disastrous, and the effects will likely last for years to come.

## Do you disagree with the government deciding which businesses are essential and which are not?

# Be Part of the Solution!

## Did you know?

- This is not about a virus; it's about control and a larger agenda (The Great Reset.)
- Restrictive health measures are being imposed on us without justification.
- The measures are in breach of our Constitution and Charter of Rights.
- There are legal means to remove them without putting peoples' health at risk.
- By taking action together, we can reclaim our freedom and hope for the future.

We are holding the government accountable for their actions and restoring our freedoms.
